

# LEGO® DROP-IN

---

## FUN FACTS

---

- 1** The word LEGO comes from the two Danish words “leg godt”, meaning “play well”.
- 2** There are over 400 billion LEGO pieces on Earth. If you divide all LEGO pieces by Earth’s population, each person would own more than 80 bricks! If stacked together, these elements could form 10 towers reaching all the way to the Moon!
- 3** Due to a generous donation of LEGOs from previously used pieces in holiday window displays, GSCWM received 350 boxes with approximately 6,600 LEGO pieces per box! That’s enough LEGOs to supply all four of our camps and both of our Leadership Centers!
- 4** You can combine a set of 6 2x4 LEGOs in 915 million ways! That’s a ton of different combinations for how you can use and mix up LEGOs. Imagine what you can do with GSCWM’s 2,310,000 pieces!
- 5** YOU can reserve one of our Leadership Centers for plenty of LEGO fun at no charge, and play well to your heart’s content!

From one-minute challenges to LEGO games, to badge work, to full structure builds, to team-building exercises, to open-ended fun, your troop can use our space to let your imagination run wild! Our large conference rooms offer plenty of creative space for your troop to enjoy our never-ending supply of LEGOs for your never-ending fun! Along with the LEGO bricks, our Leadership Centers also have LEGO Challenge cards and building ideas for your use.

To reserve a LEGO Drop-In at either the Worcester or Holyoke Leadership Center, contact [info@gscwm.org](mailto:info@gscwm.org) for availability. Bring your own imagination and build something fun!

Our Program Team has put together some really great program opportunities using the LEGOs throughout the year, like LEGO Stop Motion Movie Making, Intro to LEGO Robotics, and MakerZone programs. More information on these can be found throughout the Program Guide.
