

Making Games

Complete the five steps to earn your Making Games Badge.

1. **Try a scavenger hunt:** Find at least 10 things on your scavenger hunt. You can use our [scavenger hunt](#), or you can create your own.
2. **Make up a mystery game:** Watch the attached video to learn how to play the Mystery Box game.
3. **Create a party game:** Play the draw on my back challenge. Watch the video [here](#) to learn how to play. You can play the game in pairs or with your whole family in a chain.
4. **Change the rules:** Pick your favorite game, it could be a board game, a sport, or a silly game you play with your friends. Now change one rule of that game. It could be the way you say words in the game, the way you keep score, or add a silly step to the game.
5. **Invent a whole new sport:** Think of your favorite sport or outdoor game. Now think about how you can change it. What if you played hockey with a beach ball, or basketball with a bouncy ball? Be sure to come up with rules and a way to keep score.
