

Discovery Museum

Complete the three steps to earn your Discovery Museum [Patch](#).

1. **Tour the Louvre:** Visit one of the most famous museums in France and explore the world of Egyptian history in this virtual [tour](#).
2. **Create your own hieroglyphics:** Egyptians used the art of hieroglyphics to communicate with one another and to record their history. In a time when we cannot physically see many of our loved ones we can bridge that gap by creating our own set of hieroglyphics to express how we feel. Use the link below to help you get started and be sure to share your messages with your family!
 - Egyptian [Hieroglyphics](#)
3. **Pyramid Architecture:** Egyptians were famous for their incredible pyramids which stood as tall as 481 ft. high. Challenge yourself to build a pyramid of your own out of household materials. Begin with a sketch and remember to choose materials that are both efficient and can hold their own weight as the inside of your pyramid will be hollow. Share your pyramid structures with GSCWM by tagging us on social media!
