

Scribe

Complete the five steps to earn your Scribe Badge.

1. **Start with a poem:** Watch the attached video to learn about poems and how to write them.
2. **Create a short story:** Write a five page short story. Stories include characters, setting, and a plot. It can be a mystery, comedy, or adventure. Remember, when writing a story there should be beginning, middle, where a conflict occurs, and an end with a resolution to that conflict. After, share your story with others or even create illustrations to go along with it.
3. **Use words to share who you are:** Write an autobiographical short story. An autobiography is a story you write about yourself. You could write about your favorite Girl Scout memory, a vacation, or your favorite day.
4. **Write an article:** Articles are popular in newspapers and magazines. Articles include answers to the 5 Ws: Who? What? Where? When? Why? You can create your own article with your imagination or interview a family member about their day, or their favorite memory.
5. **Tell the world what you think:** Write a two-page essay about something you care about. You can write about your favorite animal, book, or place. Be sure to include facts and your personal opinions.
