

# Mechanical Engineering: Board Game

Complete the three steps to earn your Mechanical Engineering: Board Game Badge.

1. **Come up with an idea for your board game:** It's time to use your creativity to create your very own board game. Join Jessica to brainstorm some fun ideas for your game and learn all about what you will need for your game.
2. **Design a spinner for your game:** Follow this interactive [tutorial](#) to help you make a spinner for your game.
3. **Test your game and make it better:** Ask your family and friends to test out your game and give you some helpful feedback. Remember your game can always be even more fun and exciting!
