

Sky

Complete the five steps to earn your Sky Badge.

1. **Watch the skies:** Watch the sky during morning, afternoon, and evening. Take note of the changes you see.
2. **Investigate the science of the sky:** Visit this [video](#) to learn more about the science behind our sky and the severe weather that can form as a result.
3. **Explore the connection between people and flight:** Human beings have been fascinated by the idea of flight for years. It provides a way for us to travel, engage with other cultures, and have a bird's eye view of our world. For scientists, flight helps them to immerse themselves in our sky and space itself to learn more about their ever changing behaviors.

What has the connection between people and flight meant to you?
Share your reflections with a friend or family member and encourage them to share their reflections with you.

4. **Help clear sky pollution:** Visit this [link](#) to learn more about a NASA study on the effects of climate change on our skies and how you can help combat sky pollution.

5. **Create sky art:** Indulge your creative side while creating beautiful works of sky art. Check out the sky art below for inspiration.
